

## 10" and 12" Random Rock Hole Openers Customer Testimonial

*"In our 9 years of drilling rock, we have tried just about every tricone rock bit and hole opener in the market. It was a surprise to find a manufacturer who has finally focussed on hole openers and who has delivered a high quality product Bar None!"*

**"BHMT Tricone Bits and Hole Openers are manufactured using high quality components and with very stringent demands to quality. This high regard to quality has allowed DAMON CABLE to use one 10" Hole Opener for over 2500 feet of rock reaming - unheard of in our rock reaming experience!"**

**"The BHMT 12" Random Rock Hole Opener is also proving to be a top performer, providing us with superior productivity rates and exceptional wear resistance."**

*What a find in today's HDD Marketplace!*

- 1. Competitive Pricing*
- 2. Experienced and Strong Product Support*
- 3. Elevated Performance Levels*
