Clear-Inhib™ Plus

Performance Technology for Cleaner Drilling

Description

Clear-Inhib™ Plus is a high-performance shale inhibitor designed to provide an enhanced level of shale inhibition for a Pure-Bore® based HPWBM drilling fluid system in formations that contain swelling and reactive clays such as smectite and mixed layer illite/smectite.

Clear-Inhib™ Plus does not require KCl or other salts to give excellent shale inhibition.

Clear-Inhib™ Plus is environmentally friendly, non-toxic and Cefas registered.

Recommended Treatment

Clear-Inhib™ Plus can be mixed directly into the fluid system either through the mud hopper, straight into the pit or gravity feed dispenser.

Clear-Inhib™ Plus is effective at concentrations of 3-5vol%.

Refer to Clear Solutions SDS for health and safety guidance before handling and mixing

Packaging

Clear-Inhib™ Plus is supplied in 200 litre drums or 1000 litre IBCs.

No warranty express or implied, of merchantability fitness for a particular purpose or otherwise is made, except the product conforms to seller specifications. Buyer assumes all risk of use, storage and handling. Seller shall not be liable for any incidental or consequential damages arising directly or indirectly in connection with the purchase, use, storage or handling of the product.

**FOR INDUSTRIAL USE ONLY
PRODUCED IN THE UK**

Benefits

Hole Stability

Faster ROP

Reservoir Protection

Less Problems

Better Production

Reduce non-productive time

Cost Saving

Environmentally Friendly

Functions

- Clear-Inhib™ Plus is used to enhance the inhibitive performance of a Pure-Bore® based HPWBM drilling fluid system.
- Clear-Inhib™ Plus gives excellent cuttings hardness.
- Clear-Inhib™ Plus is compatible with all common WBM additives and does not have an adverse impact on properties.
- Thermally stable & resistant to common contaminants.
- Beneficial when environmental restrictions restrict the use of K+ cations and Cl- anions.
