Pure-Bore[®] LV Liquid

Performance Technology for Cleaner Drilling

Description

Pure-Bore[®] LV Liquid is readily dispersible, environmentally friendly, non-damaging, next generation drilling fluid technology which can be used in a wide variety of drilling and completion applications.

Pure-Bore[®] LV Liquid nano-chemistry works synergistically in Pure-Bore[®] fluids. Through its unique membrane forming characteristics, Pure-Bore[®] LV Liquid enhances both fluid loss control and shale encapsulation, whilst minimising additional viscosity.

Pure-Bore[®] LV Liquid enhances drilling performance - significantly improving borehole stability with minimum viscosity for improved ECD management, whilst optimising reservoir protection.

Recommended Treatment

STIR WELL BEFORE USE

Slowly mix Pure-Bore[®] LV Liquid into water.

Depending on ground conditions add at
 5.0 - 15.0kg per cubic metre or
 1.75 - 5.25lb per barrel of drilling fluid

Refer to Clear Solutions SDS for health and safety guidance before handling and mixing

Packaging

Pure-Bore[®] LV Liquid is packaged in the following;

- 20kg Plastic Pail

No warranty express or implied, of merchantability fitness for a particular purpose or otherwise is made, except the product conforms to seller specifications. Buyer assumes all risk of use, storage and handling. Seller shall not be liable for any incidental or consequential damages arising directly or indirectly in connection with the purchase, use, storage or handling of the product.

**FOR INDUSTRIAL USE ONLY
 PRODUCED IN THE UK**

Benefits

Hole Stability

Faster ROP

 Reservoir
 Protection

Less Problems

 Better
 Production

 Reduce
 non-productive time

Cost Saving

 Environmentally
 Friendly

Functions

- **Exceptionally shear thinning**
- **Tight filter cake and solids free fluid loss control**
- **Shale encapsulation**
- **Non-progressive gel strength**
- **Reservoir protection**
- **Readily dispersible and easy to mix with minimal shear, in fresh water or a range of saturated brines**
- **Temperature stable**
- **Chemically stable in the presence of a range of typical oil field contaminants**
- **Compatible with a wide range of oil field chemicals and minerals**
- **Effectively recycled through fine shaker screens**
- **Environmentally Friendly – CEFAS Registered**
