# Pure-Bore<sup>®</sup> Liquid

## Performance Technology for Cleaner Drilling

### Description

Pure-Bore<sup>®</sup> Liquid is a readily dispersible environmentally friendly, non-damaging, next generation drilling fluid technology which can be used in a wide variety of drilling and completion applications.

When used in fresh water or a variety of brines, Pure-Bore<sup>®</sup> Liquid forms the basis of a high performance water based drilling fluid. The Pure-Bore<sup>®</sup> Liquid nano-chemistry provides a highly shear thinning fluid, with both fluid loss control and shale encapsulation via its unique membrane forming characteristics.

Pure-Bore<sup>®</sup> Liquid enhances drilling performance - significantly improving hole cleaning, ECD management and borehole stability, whilst optimising reservoir protection.

### Recommended Treatment

#### STIR WELL BEFORE USE

Slowly mix Pure-Bore<sup>®</sup> Liquid into water.

#### Depending on ground application add at

4.0 - 12.0kg per cubic metre or  
1.4 - 4.2lb per barrel of drilling fluid

*Refer to Clear Solutions SDS for health and safety guidance before handling and mixing*

### Packaging

Pure-Bore<sup>®</sup> Liquid is packaged in the following;

- 20kg Plastic Pail

No warranty express or implied, of merchantability fitness for a particular purpose or otherwise is made, except the product conforms to seller specifications. Buyer assumes all risk of use, storage and handling. Seller shall not be liable for any incidental or consequential damages arising directly or indirectly in connection with the purchase, use, storage or handling of the product.

**FOR INDUSTRIAL USE ONLY  
PRODUCED IN THE UK**

### Benefits

Hole Stability

Faster ROP

Reservoir Protection

Less Problems

Better Production

Reduce non-productive time

Cost Saving

Environmentally Friendly

### Functions

- **Exceptionally shear thinning**
- **Tight filter cake and solids free fluid loss control**
- **Shale encapsulation**
- **Non-progressive gel strength**
- **Reservoir protection**
- **Readily dispersible and easy to mix with minimal shear, in fresh water or a range of saturated brines**
- **Temperature stable**
- **Chemically stable in the presence of a range of typical oil field contaminants**
- **Compatible with a wide range of oil field chemicals and minerals**
- **Effectively recycled through fine shaker screens**
- **Environmentally Friendly – CEFAS Registered**
